Q: Who will deal with my claim?

A: We are a claims Management Company; our panel of solicitors can pursue your claim for you. All our solicitors are regulated by the Law Society.

Q: What if my accident/injury occurred years ago?

A: You have three years from the accident or injury occurring to make a claim. Therefore we advise to seek as soon as possible, to ensure that you can make a claim.

Q: Am I eligible to make a claim?

A: Each claim is individual but you are eligible to make a claim if you have suffered a physical or psychological injury that wasn't your fault. Speak with one of our advisors as soon as possible so we can determine whether you have a claim. It is not in our or your interest to proceed with cases that we do not feel will result in success.

Q: How much compensation will I receive?

A: Each case is individual and calculated on its own merits, there are no fixed tariffs. The amount of compensation received depends upon a number of factors including pain and suffering and financial losses as a result of the accident.

Q: How long do I have to make a claim?

A: If your claim is the result of an accident, the usual time is three years from the date of the accident. If you are under 18, the three year period does not commence until your 18th birthday. Different time limits apply outside England and Wales.

Q: How do I know if I have a claim?

A: You will generally have a claim if you have been injured due to somebody else's fault. This may be the driver of a car in which you are a passenger or another driver. We will be able to advise on whether you are likely to have a claim once we have spoken to you.

Q: What if the accident may have been my fault?

A: it is still possible to claim as long as somebody else was also at fault, but any compensation you recover would be reduced to the extent that you were at fault. However, it would obviously not be possible to claim if your injury was entirely your own fault.

Q: What type of injuries may I claim for?

A: You can claim for any physical or psychological injury.

Q: Can I claim for financial loss?

A: You can claim for any financial loss suffered as a result of your injury.

Q: What if my accident happened abroad?

A: it is likely that you will still be able to make a claim, although different rules and time limits may apply outside England and Wales. We will be able to advise you once we know the circumstances.

Q: How long will my claim take?

A: Each case is different. The actual time taken generally depend on the severity of the injury. Lower value claims are often settled within a few months. More serious cases usually take longer. However, whatever the nature of your injury, it is as much in our own interests as yours that we process your claim as quickly as possible.

Q: Will I have to visit your office?

A: No, although you may prefer to if you live locally. We act for clients nationwide and will deal with everything by letter, email and telephone as far as possible.

Q: Will I have to fill out loads of paperwork?

A: We will be able to deal with most of the paperwork for you, but you will have to check it.

Q: What will I have to do?

A: You will have to provide us with all relevant information about the circumstances of your injury. You will be expected to co-operate with us, provide information to us when requested and not do anything to delay or prejudice your claim. We will guide through the claims process.

Q: Will I have to go to court?

A: Around 99% of personal injury cases settle without the need to attend court.

Accident Management Claim Specialists

Crash • Claim • Result
